

Name of Project \_\_\_\_\_ Proposed PPP \_\_\_\_\_

Name of Company/Consortium \_\_\_\_\_

Go through the self diagnostic below. You don't have to answer each question. If you do, answer truthfully as this is not intended to be punitive, but rather a value-adding mechanism to help you think through and evolve your bid. These responses will not be used in isolation, and neither will they be the only assessment for your likely eligibility to partner with the KP<sup>3</sup> Bureau/State.

You may use this self-diagnostic as many times as you feel is required to prepare your submission. Be sure to attach the most relevant self-assessment results with your final submission. On the second page, indicate the steps you took to improve your score from one assessment to the other. This will be helpful to assess you/your group's willingness and flexibility to meet the required criteria.

Question	Possible Responses	Your Scores
An assessment of the profitability has been conducted.	No = 0; Yes = 2 pts	
Some preliminary risks and their mitigants have been identified.	No = 0; Yes = 2 pts	
The proposed deal structure goes beyond simple procurement/delivery of infrastructure.	No = 0; Yes = 2 pts	
My company/consortium's roles includes financial, operational/service delivery and/or management tasks.	No = 0; Add 1 pt for each function up to 3 pts	
There will an improvement (new or refurbished) in the overall asset stock for the sector's utilization.	No = 0; Yes = 2 pts	
It will not be necessary for an intermediary (third party or KWSG) to facilitate/intervene for services to reach the end users.	No = 0; Yes = 2 pts	
The viability of the project depends less on KWSG's financial intervention.	No = 0; Yes = 2 pts	
The outputs of this project have multiple tangible impact on other sectors BEYOND those identified by the KWSG.	No = 0; Yes = 2 pts	
There is knowledge transfer and value addition in the processes and technologies to be utilized (beyond the typical first-level processing and simple technology transfer).	No = 0; Yes = 2 pts	
The proposal features inherent methodologies to minimize power utilization and/or costs.	No = 0; Yes = 2 pts	
<b>GRAND SCORE</b>		
<b>PERCENTAGE (out of 21)</b>		

The best possible score is 15. The worst possible score is 0. **YOU MUST ANSWER YES TO AT LEAST 7 QUESTIONS FOR ELIGIBILITY TO BE CONSIDERED. ONLY PARTNERS WITH SCORES ABOVE 15 (out of 21) (71.4%) WILL BE CONSIDERED FOR FITNESS AND POTENTIALLY ELIGIBILITY.**

If you scored below 15 points consider forming a consortium with parties that will increase the overall likelihood of a successful bid. If you're already in a consortium, then reconsider your partners and make adjustments as required.

**My company/consortium took the following steps to improve our score.**

[Please make comments brief and mention only the most impactful steps taken.]
